Product Description:	CBP (Calmodulin-Binding Protein) is an excellent fusion protein tool for protein purification. CBP can bind to calmodulin resin under low-calcium conditions, and high-purity CBP fusion protein can be obtained by elution. The CBP antibody produced by our company is a highly purified monoclonal antibody that can specifically recognize the CBP polypeptide sequence in fusion proteins with high specificity.
Recommended Dilution:	Western Blot (WB): 1:1000—1:10000

Hazard/Biohazard: This material contains sodium azide as a preservative; take appropriate precaution. There is no known biohazard associated with this product.

Notes:

1. Please use an anti-mouse secondary antibody, e.g., Goat anti-Mouse IgG(H+L)-HRP (SLS-KY3001).
2. Determine the optimal antibody dilution according to experimental conditions.
3. This product is for scientific research use only and not for clinical diagnosis.
