

SPECIFICATION SHEET

Catalog number:	SLS-KY1104P
Product name:	HA-tag Rabbit Polyclonal Antibody
Lot:	
Antibody type:	Anti-HA-tag Rabbit Polyclonal Antibody
Concentration:	mg/ml
Specification:	100ul/vial or 1ml/vial
Immunogen:	Synthetic YPYDVPDYA peptide conjugated to KLH as immunogen.
Buffer:	0.01M pH7.4 PBS, 0.1%BSA, 50% Glycerol
Preservative:	0.02% Sodium azide
Storage:	Stored at 2-8°C short term, -20°C or colder long term. Avoid multiple freeze/thaw cycles.
Expiration date:	3 Years
Product Description:	The HA-tag is a 9-amino-acid polypeptide derived from the hemagglutinin surface epitope of influenza virus. It has minimal impact on the structure and function of target proteins and can be easily cloned to the N-terminus and C-terminus of fusion proteins, making it widely used. Our HA antibody is a high-purity affinity-purified rabbit polyclonal antibody that specifically recognizes HA-tag sequences at the N-terminus, C-terminus, and internal positions of fusion proteins.
Recommended Dilution:	Western Blot (WB): 1:1000—1:10000 Immunofluorescence (IF): 1:100 — 1:1000

Hazard/Biohazard:

This material contains sodium azide as a preservative; take appropriate precaution. There is no known biohazard associated with this product.

Notes:

1. Use an anti-rabbit secondary antibody, e.g., Goat anti-Rabbit IgG (H+L)-HRP (SLS-KY3002).
2. Determine the optimal antibody dilution for your specific experiment.
3. For research use only; not for clinical diagnosis.
